# USER-FRIENDLY AND CLEAR

## Customer Display **BCD-1000 / 1100**

BIXOLON BCD-1000/1100 is powerful Vacuum Fluorescent Customer Display which provides a wide viewing angle, long life, high reliability and high display quality. It is designed to improve image and service with an enhanced customer display, featuring modules PC-based POS applications.

# Customer Display BCD-1000 / 1100

## FEATURES

### Compact size and Clear display

The BCD-1000/1100 is a slim customer display that provides your customers clear, easy-to-read information at the fastest data-transfer rate available. This easy-to-use VFD makes an attractive communication with customers by its fascinating design and rich colors.

### User-friendly design

With USB cable connection (BCD-1100) and pass-through functionality (BCD-1000), BIXOLON customer displays are all easy to connect with BIXOLON POS printer and directly connect with customers' existing host terminal. Especially the new BCD-1100 is a solution to make you save the power consumption and also save on counter place because it is not needed the power supply.

### Freely adjustable telescopic pole height

All poles are factory standard and the BCD-1000/1100 is easily able to adjust the pole length by its users.

From 158mm to 533mm  
One standard model meets all the different requirement of height

### Convenient wall mounting

Save the counter space and ensure the clear viewing angle of your customers. No more space on the counter is important for installation.

### User-friendly software tools

- Easy plug-and-play USB setup
  - Automatic detection of the new hardware connected to the PC via the USB port
- Easy-to use utility program
  - Various code page selection out of 16
  - Using the VMSM, a configuration setting can be preserved even after power shutdown
- Versatile Emulations
  - BXL / POS, ADM787/788, DSP800, AEDEX, UTC Standard, UTC Enhance, CD5220, NCR Real POS, PD6000, ICD2002
